

**VIRGINIA WASTE TIRE PROGRAM
WASTE TIRE HAULER REGISTRATION
(FORM DEQ-HR)**

No. 153

2010

DEQ has developed a voluntary waste tire hauler registration system. Any transporter can apply and will qualify if they have a valid Tax ID/FIN number, **a business license from their local government**, and have no outstanding compliance or enforcement actions with DEQ. Virginia does not regulate the transporters of any solid waste, which includes waste tires. There may be, of course, federal transportation requirements (CDL, placards, etc.) and local business license requirements that must be met. Lastly, haulers may not store tires on any property, including their own.

DEQ will provide the list of currently registered haulers to anyone requesting it. DEQ does not endorse any of the registered haulers nor can it ensure that they comply with all applicable environmental laws, regulations and permits. It is the user's responsibility to do so.

To register, complete this form and mail it to DEQ. After validation of submitted information, DEQ will issue a Hauler ID Number to be used in all future transactions.

APPLICATION FOR HAULER REGISTRATION No. _____ TAX ID/FIN# _____
